De Paul College emerged as a significant educational institution in **Jaro, Iloilo City**, during the second semester of the 1961–1962 academic year when the **Congregation of the Mission**, popularly known as the Vincentian Fathers, acquired the struggling Lopez Jaena Memorial College from its owner, Atty. Rosendo Baltazar.

JUNE 29 IS POPE'S DAY!

Every June 29, the Catholic Church celebrates Pope's Day, coinciding with the Solemnity of Saints Peter and Paul, Apostles. This special day invites the faithful to pray for the Holy Father, thank God for his ministry, and renew our unity with the Church founded by Christ upon St. Peter.

As Catholics, we remember the words of Jesus to St. Peter: "You are Peter, and upon this rock I will build my Church" (Matthew 16:18). The Pope, as the successor of St. Peter, carries the mission of shepherding the universal Church and guiding the faithful in truth and charity.

On this Pope's Day, let us offer our prayers for the Holy Father—that the Lord may grant him wisdom, strength, good health, and the grace to faithfully lead the People of God. May we also remain united with the Church and deepen our love for Christ.

Prayer for the Pope:

Heavenly Father, guide and protect our Holy Father. Fill him with the wisdom of the Holy Spirit as he shepherds Your Church. Grant him strength in his ministry, peace in his heart, and the grace to lead Your people closer to Christ. Through the intercession of Saints Peter and Paul, may he remain faithful to the mission entrusted to him. Amen.

Happy Pope's Day!

Joe Rogan blasted critics who attacked people for attending UFC Freedom 250 at the White House, arguing that showing up to watch fights doesn't mean you endorse a politician's views.

Rogan called the event “the wildest experience” of his career and urged Americans to stop turning everything into a political fight.

History of Dueñas: Facts and Folklores, Book 1 -
Pre-Colonial Period
Part II DUEÑAS, Early 16th Century and Back
Chapter 4 Pre-Historic Dueñas

INTRODUCTION

This chapter is about Dueñas as the land before time. Its existence
before historic times proven by archeological evidences such as relics and artifacts. Stories told about it will be tackled in this chapter. This is also about peopling of Dueñas vis-a-vis the peopling of Panay Island and the Philippine archipelago; from Ati or Negrito tribes, the Indonesians and the first wave of Malay migration. The highlight of this chapter is the birth of Simsiman evolving to become the first cradle of civilization of the aborigines or the Atis. This is the story of Simsiman, the Old Panay.

A. GEOLOGICAL EVIDENCES

The Philippine Archipelago was once a part of the Asiatic Continent. The island of Panay itself had not always been what it is now. For some time during the early ages it was an integral part of the island of Luzon to the north and of Palawan and Mindanao to the south. There was also a time during the interglacial period when the whole island was practically under water. This belief is supported by the presence of existing areas of corals in the inland
town of Duenas and other neighboring town. Another interior town, Janiuay formerly a part of Duenas when the latter was still Simsiman, has a cemetery which was built from coral rocks dug from the area. Mt. Panaggaraon, located near the inland town of
Dumalag, in Capiz, also abounded in corals. Excavations on Mt. Kambing in Ibajay, Aklan yielded with marine fossils. Beneath this layer are layers of soil mixed with stones and other minerals known
to be found in volcanic eruptions. Such evidences point to the occurrences of seismic fluctuations in the past. When land became unstable, some places sank beneath the sea and later rose again. other minerals known
to be found in volcanic eruptions. Such evidences point to the occurrences of seismic fluctuations in the past. When land became unstable, some places sank beneath the sea and later rose again. One section of Panay did not sink, however, and this part now forms the great mountain range which divides the provinces. This mountain range runs from north to south that separates Antique from Iloilo, Capiz and Aklan. Above its soft granite core, has a mantle that does not contain marine fossils. Some parts of the island have more varied histories. Their layers of soil show by what they contain that they submerged, then rose only to submerge again before finally rising out of the sea to their present estate.

1. Archeological Evidences

In 1965, F. Landa Jocano of the National Museum discovered fossil remains of an elephant in Cabatuan, Iloilo. The fossils are believed to be from 100,000 to 200,000 years old. With the fossils were stone tools bearing mark of human use. Recent Archeological findings by Willis E. Sibley reveal that 100,000 to 200,000 years ago the Philippines, particularly Panay, was inhabited by people who were basking in their own culture though leading a not too progressive life. Archeological records and narratives written by Chinese officials including those written by Muslim scholars, point to the early relations of the Philippines with neighboring countries. The records are clear proofs of the existence of a civilization that was basically oriental in texture.

B. ANTHROPOLOGICAL EVIDENCES

1. The Dawn Man

The positive proof that man was in the Philippines at least as early as 22,000 years ago was the discovery of a skull of man in Tabon Cave, Palawan, 1963. It seems that the dawn or primitive man came to this country by means of land bridges, bringing along with him his primitive culture consisting of stone implements. He was
apparently accompanied by huge mammals like the elephant and rhinoceros. He lived in cave, had little or no clothing and subsisted on raw food. Remain of these people were found in the provinces of Laguna and Rizal. None of their remains were found in Panay, or their remains are to be discovered yet. If they were accompanied by huge mammals like elephants, there is a greater probability they roamed Panay since fossils remains of an elephant were found in Cabatuan, Iloilo with stone tools bearing mark of human use.

2. The Atis

Sometime like 25,000 to 30,000 years ago, the ancestors of the Philippine Pygmy people using the same land bridges came to the Philippines. The Panayan Atis must have belonged to the true Negrito race as evidenced by the features of their present day
descendants who still live in Panay today. They were very short and dark with kinky hair. In Dueñas, the Atis have their own community in Barangay Taminla where they were given assistance and support as Indigenous People. According to some historians, among them Austin Craig – the Negritos came from New Guinea. Another theory, by Nicholas Tarling, is that Atis came from India via Malay Peninsula, Indonesia and Borneo to the Philippines. They used blow guns, bow and arrow as weapons and used stone implements in cutting bamboo and wood and in making arrow and darts. They wore primitive clothing made of tree barks. Their houses were made of branches and leaves of tress. They traded with their neighbors and bartered their forest products with ornaments and clothes. The Panay Atis came from Borneo via the Palawan and Sulu chains. They came to Panay earlier than Indonesians and the Malays did. The latter became the ancestors of the dominant present day Visayans. The Atis called the Visayans “anghod” which means younger sibling. The songs of the Atis corroborated the belief that they were the first to occupy Panay. A sample song runs as follows:

Bisan tamon ati Though we be Negritos
Maitum nga linahi Of the black race
Binata tamon din-hi Here we were born
Timbang kami diamante Our worth is as of diamond
Diamanteng kamahalan Most precious diamond
Doble and Ginikanan From two ancestral lines
Gurang tamon sa bisaya We preceeded the Bisayans
Labi pa sa Kastila as we did the Spaniards
Kastila sa Manila Spanish in Manila
Padi sa Irong-irong Priests in Iloilo

Magabu-ong sang agong had broken the Agong
Lingganay pagtunog ka Bell, you peal
Makapsa sang lingganay had cracked the bell
Agong, pa-ugayong ka Agong, you toll

3. The Indonesians

More than 7,000 years ago, the ice of the world melted and raised the sea levels in such a manner as to submerge the land bridges that connected the Philippines with the Asian continent. Another group of people, classified by anthropologists as “Indonesians A” crossed over by boats coming from Southeast Asia 5,000 to 6,000 years ago. They belonged to Early Stone Age with light skin and sharp thin face, tall and slender. These Indonesians originally came from South China and Taiwan. Their group pushed out of those expanding nations: first, into Indonesia; and then to the Philippines. They were culturally advanced than the Atis. They built wooden, grass-roofed houses which they surrounded with roughhewn stones. They practiced dry agriculture, producing for their immediate needs, yams and millet. Although, Indonesians settled mostly in Northern Luzon, the Mundo of the interior Panay probably descended from this stock. People who have seen and lived with them in the mountains along the boundary of Aklan and Antique described them as fair in complexion and good looking. The Karay-a dialect presents similarities with a lot of Indonesian words like the following:

Indonesian Karay –a Tagalog English

About 1,500 BC, the Indonesian belonging to the late Neolithic period sailed in their dugout boats and landed in Luzon and Taiwan (Formosa). They are the ancestors of the non-Christian Kalingas, Gadangs, Apayaos, Igorots and Ilongots of Luzon, the Tagbanuas of Palawan, the Bagobos, Bilaans, Manobos and Tirurays of Mindanao. They came from the Indo-Chinese Peninsula, particularly Vietnam. They are stocky, with dark complexion, thick lips and large noses and they are classified as "Indonesian B". There is no good evidence to show that this type of Indonesians also settled in Panay. The third group of Indonesians came between 800 and 500 BC. Their culture was characterized by the use of metals. They brought with them copper and bronze. Because of their advance culture, it is believed that they probably introduced irrigation in the rice culture and built the first rice terraces in the Philippines. They introduced smelting and copper mining. Because of their use of copper

probably introduced irrigation in the rice culture and built the first rice terraces in the Philippines. They introduced smelting and copper mining. Because of their use of copper and bronze, they may be described as belonging to the Bronze-Copper Age.

4. The Malays

The Malays were of medium height and slender, but hardy. A typical Malay had black hair, brown eyes and a flat nose. They belonged to the Iron Age. The Last of the pre-historic migration was when the first wave of Malays came to the Philippines between 300-200 BC. and occupied the islands of Luzon and Mindanao.

Coming from the south in their sailboats they headed by way of Palawan and Mindoro and into Visayas and Mindanao by way of Celebes Sea. They carried with them their knowledge of irrigated agriculture, the smelting and manufacturing of tools, weapons,

utensils and ornaments made of iron and other metals, the manufacture of ornamental pottery, the art of weaving and the manufacture of different ornaments of blue and green glass. Their knowledge of these things must have come from India, whence it

spread out to Southeast Asia and Malaysia reaching the Philippines. They built their houses of wood and bamboos above the ground. They introduced Carabao and horse and used them as work animals. They made garments of woven fabrics and cultivated

fruit trees, fiber and ornamental plants, spices and other agricultural products which made them truly civilized during that period of man's cultural history.

‘SORRY HA, GALING AKONG GYM EH’

Senate President Win Gatchalian apologized for briefly sipping water amid the press conference on Thursday.

“Sorry ha, galing akong gym eh. Uhaw na uhaw, hindi ako nakainom,” he said, drawing chuckles from the crowd.

He mentions that going to the gym helps him with stress. “Para mawala ‘yung stress,” he added. (Screenshots/Senate)

Can you imagine, may mga Pilipinong natutuwa na hawak na ng Marcos - Romualdez government both HOR at Senate?
Tapos mag rereklamo pag ninanakawan? Mag rereklamo na walang checks and balances? Tapos mag rereklamo na walang mananagot?
DDS discovering checks and balances now is comedy: noon, palakpak sila sa House supermajority ni Duterte, Senate allies, De Lima persecution, Pharmally report na inipit, Sereno quo warranto, ABS-CBN shutdown, at drug war cases na halos hindi gumalaw sa korte.
Tama ang prinsipyo, mali ang messenger: hindi kayo galit sa authoritarian control, galit lang kayo kasi hindi na kayo ang may hawak ng remote.

TAG-IYA SANG IDO NGA SI MAX, NAGAPATI NGA NAGHIMBUNANAY ANG IYA PAKAISA KAG KASILINGAN PARA PATYON ANG IYA HINUPTANAN

Mabaskog ang pagpati sang tag-iya sang ido nga si Max nga si Angela Billena, nga naghimbunanay ang iya pakaisa nga si Leo Sta. Romana kag iya kasilingan nga si Susan Erlano Gatmaitan kag pamilya sini para taguon, i-torture, kag patyon ang nasambit nga hinuptanan sa Zone 6, Ungka 2, Pavia, Iloilo.

Sa interview sang RMN Iloilo kay Billena, ginsaysay sini nga nagabakasyon sa ila balay si Sta. Romana kag sang April 25, las 6:00 sa aga, nadula si Max matapos niya nga ginpagwa sa balay kag wala na ginpasulod bisan pa nga nagbalik sa gate ang sapat suno sa mga witnesses nga nagpanugid sang natabo.

Dugang pa niya, nga halos 40 ka adlaw nga ginpangita nila si Max apang wala gid nila ini makita tubtob nga may duha ka bata nga nagahampang sa bakante nga lote sa ila lugar, nga nakakita sang bangkay ni Max nga nakalubong apang hapaw lang kag nagapanimaho na.

Pagsaysay ni Billena, nga natukiban nila nga isa sa ila mga kasilingan nga amo si Gatmaitan, ang naglubong kay Max bangud nga nagakabugto na ang ginhawa sini kag nagabaho. Apang sang ulihi, ginpahayag naman sini nga lain nga ido ang iya ginlubong.

Jun 18, 2026 14:00:35

Suno pa sa agalon, nga base sa kondisyon sang ginapatihan nga bangkay ni Max, wala ini ginpakaon kag gin-torture pa bangud nagkalabali ang tiil sini.

Wala naman sang ideya si Billena kon ano ang motibo sang iya pakaisa sa pagsasko sa iya hinuptanan kag ang rason naman sang iya kasilingan sa ginaalegar nga pagtago, pagsakit, kag pagpatay kay Max.

Sa karon, nagapanawagan sang hustisya ang pamilya Billena para sa ila pinalangga nga hinuptanan nga ila na ginakabig kuntani nga bata.

Si Max ang naga-edad sang halos siyam ka tuig kag isa ka Chipoo ukon mixed nga Chihuahua kag Poodle nga lahi sang ido.

Sang ginpakig-angutan naman sang RMN Iloilo si Gatmaitan, hugot sini nga ginpanginwala ang alegasyon ni Billena kag nanindugan nga lain nga ido ang iya ginlubong.

Why are the DDS cult followers so quick to curse and wish harm on the president?

Ryan, you need to learn about the law of karma or the "law of cause and effect" in Hermetica.

The last time a DDS wished for the president's demise, she ended up dying of cancer, and so many netizens think she deserves it.

REKLAMO VS. DEFENSOR

Nakatakdang maghain ang National Bureau of Investigation (NBI) ng qualified human trafficking charges laban kay dating congressman Mike Defensor kaugnay ng kasong may koneksyon sa ni-raid na KTV bar sa Pasig City.

Ayon kay NBI Director Melvin Matibag sa programang “Storycon” ng One News, posible itong ihain sa Biyernes, June 19 o Lunes, June 22.

“We are able to complete the matrix na lumalabas, kasama po talaga siya,” sabi ni Matibag.

Dagdag ng NBI Director, non-bailable o walang piyansa ang kasong ihahain laban sa dating kongresista.

Congressman Paolo "Pulong" Duterte
A highly reliable source informed me that ICC arrest warrants against Senator Bong Go and two former police officers have already been issued.
Wala na ba talagang katapusan ang administrasyong ito sa paggamit ng ICC bilang political weapon laban sa kanilang mga kalaban?
Wala na ba talaga kayong awa o hiya sa pinag gagawa ninyu? Huwag gamitin ang mga ahensya ng gobyerno sa pag supil at pagpapa tahimik sa mga kalaban sa pulitika para lang mapagtakpan ang mas malaking issue ng pagnanakaw sa kaban ng bayan.
Naa na sa P18.49 trillion ang utang sa pilipinas ug ga dako pa kini...hindi na pera ng taumbayan ang ninanakaw,pati kinabukasan ng ating mga anak at apo ay nalalagay na sa alanganin...hanggang kailan ba tayo magpapaka bulag bingi sa nangyayari sa ating bayan?
Ang kasaysayan nagtudlo nga walay permanenteng kaalyado sa politika—interes lamang ang permanente.
Ug sa katawhan, ayaw ninyo tugoti nga mahimong himan sa politika ang hustisya. Ang balaod kinahanglan patas, dili armas batok sa oposisyon.
Loslos ninyo mga talawan ug korap! Karma na lang amo.
Wala na ba talaga kayong awa o hiya sa pinag gagawa ninyu? Huwag gamitin ang mga ahensya ng gobyerno sa pag supil at pagpapa tahimik sa mga kalaban sa pulitika para lang mapagtakpan ang mas malaking issue ng pagnanakaw sa kaban ng bayan.

‘BA’T KAYO GALIT NA GALIT PAG NAG FA-FACEBOOK AKO?’

Senator Alan Peter Cayetano addressed criticisms he received for doing Facebook Live streams.

“Ito lang ang tanong ko sa mga pamilya ko sa Facebook. Bakit si Senator Lacson, si Senator Raffy Tulfo, si Senator Erwin Tulfo na gumagamit din sila ng Facebook. Tingnan niyo nga sa Senate, bawat salita, tumingin lang ganun may sumusunod din sa kanila…,” he said on Thursday.

“Ba’t kayo galit na galit pag nag fa-Facebook ako? Eh ang hilig niyo rin mag-Facebook!” he added. (Screenshots/Alan Peter Cayetano)

'HUWAG NA TAYONG MAGLOKOHAN'

Iginiit ni Sen. Alan Peter Cayetano na ang dahilan umano kung bakit nais ng bagong mayorya na palitan siya bilang Senate President ay upang magtuloy-tuloy ang impeachment proceedings laban kay Vice Pres. Sara Duterte.

"Gusto niyo, grupo ninyo ang magdikta ng tempo through the presiding officer," saad niya.

Ayon pa kay Cayetano, layon umano ng Senate leadership change na magkaroon ng cover-up sa flood control scandal.

NEWS UPDATE: Tila hindi raw siniseryoso ng kampo ni Vice President Sara Duterte ang impeachment trial laban sa kaniya, ayon kina House impeachment team spokespersons Reps. Zia Adiong at Renee Co.

Ito ay matapos ang hindi pagsipot ni Vice President Sara Duterte sa pre-trial conference ngayong araw, June 18, at ang hindi raw pagsagot nito nang ayos sa mga katanungan tungkol sa mga kasong inihahain laban sa kaniya.

#SciFeature GAANO KAHABA ANG PINAKAMAHABANG ARAW? 🌞

Sa darating na Hunyo 21, masasaksihan muli sa Pilipinas ang 'pinakamahabang araw' ng taon. Sa araw na ito ng #SummerSolstice, karamihan sa mga lugar na nasa hilaga ng Maynila ay makakaranas ng higit sa 13 oras na may araw.

Ngayong 2026, ang Summer Solstice ay papatak muli sa Hunyo 21, araw na sinasabing may "pinakamahabang araw" sa taon para sa karamihan sa mga bansa na nasa hilaga ng ekwador, at pinakamaikli naman sa mga nasa timog nito.

Bagamat itinuturing na "pinakamahaba" ang araw sa Hunyo 21, magkakaiba pa rin ang aktwal na haba nito sa iba't ibang panig ng bansa. Ang mga lugar na nasa hilagang bahagi (tulad ng Northern Luzon) ay makakaranas ng mas mahabang araw kumpara sa mga nasa katimugang bahagi (tulad ng Mindanao).

Sa Hunyo 21, ang Maynila ay makakaranas ng halos 13 oras na araw, at ang mga nasa hilaga nito ay higit pa rito. Pinakamahaba sa Batanes na lagpas sa 13 oras at 20 minuto ang araw.

ANSWER: Praying the Rosary is not simply "praying to Mary" in the same way Catholics pray to God, but it is also not separate from God either.

The Rosary is a Christ-centered prayer that is ultimately directed to God the Father, through the life of Jesus Christ, while asking the Blessed Virgin Mary to intercede and help guide meditation on those mysteries.

1. Who is being addressed?
The main prayers (like the Our Father) are clearly directed to God the Father.

The Hail Mary includes Scripture-based words (Luke 1:28, 1:42), and the second part is a request for Mary to pray for us:

"Holy Mary, Mother of God, pray for us sinners..."

So we Catholics are not worshipping Mary, but asking her to pray for us, similar to asking a fellow believer for a prayer.

2. What is the Rosary centered on?

The Rosary is actually focused on the mysteries of Jesus Christ's life:

His Incarnation
His Passion and Death

2026-06-18 17:19:46

His Incarnation
His Passion and Death
His Resurrection

So the center is always Christ, not Mary.

3. Simple way to understand it
➡️God is worshipped
➡️Mary is honored and asked to intercede
The Rosary is a meditative prayer that leads the mind to Jesus through Mary

The Rosary is a prayer to God, with Mary's intercession, not worship of Mary. It's meant to deepen faith in Christ while asking Mary to pray with and for the person praying.

They say they were walking and 'yung stationary jog to make their feet more stronger while in the water. That is part of the question that has to be answered by the coaching staff—why kailangan pa doon sa water if they need to undergo training kasi uneven ang shoreline?

Jesus did build a visible Church. Not an invisible idea, not a modern invention, and not something that disappeared for hundreds of years. Jesus established an organized Church in the 1st century, built upon the Apostles, and He promised that it would remain until the end of time.

Jesus said:

“And I tell you, you are Peter, and on this rock I will build my Church, and the gates of Hades shall not prevail against it.” -Matthew 16:18

Notice that Christ said “My Church” singular. He did not say His Church would disappear, become corrupted forever, or need to be recreated in modern times. Instead, He promised that the powers of death and hell would never overcome it. If the true Church had completely vanished even for one day, then Christ’s promise would have failed. But God never fails, and the truth cannot be lost.

Jesus also promised:

“And behold, I am with you always, to the end of the age.” - Matthew 28:20

The Bible also calls the Church:

2026-06-18 17:24:22

The Bible also calls the Church:

“The Church of the living God, the pillar and foundation of the truth.” -1 Timothy 3:15

History itself proves that Christianity continued through the centuries. The Christian faith did not suddenly appear in modern times. From the Apostles, to the early Christians, to believers throughout every century, the Church continued to exist despite persecution, wars, and the fall of empires.

Ancient Christian structures still stand today as evidence that Christianity lived throughout history:

• Catacombs of Rome - where early Christians worshipped and buried their dead during times of persecution.

• Church of the Holy Sepulchre - one of the oldest Christian churches connected to the death and resurrection of Christ.

• Saint Peter's Basilica - traditionally built over the tomb of Saint Peter, the Apostle chosen by Christ.

• Hagia Sophia - originally built as a Christian cathedral in the 6th century.

2026-06-18 17:24:25

Even the writings of early Christians like Ignatius of Antioch, Irenaeus of Lyons, and Justin Martyr show that the Church was already organized with bishops, priests, sacraments, and apostolic authority long before modern denominations existed.

For more than 2,000 years, Christianity has endured - not because of human strength, but because Christ Himself sustains His Church.

'HUWAG NA TAYO MAGLOKOHAN'

PANOORIN: Binanatan ni Sen. Alan Peter Cayetano ang Gatchalian bloc at iginiit na malinaw umano mula pa noong una ang kanilang layunin na mapalitan ang Senate President upang maituloy ang usapin ng impeachment at makontrol ang direksiyon ng Senado.

Ayon kay Cayetano, hindi lamang impeachment ang pangunahing isyu kundi maging ang umano'y pagtatakip sa mga kontrobersiyang may kaugnayan sa flood control at iba pang mga usapin na aniya'y dapat mabusisi.

MARK AND AVOID

WE ARE EXPOSING THE NAMES OF THESE FAKE CHRISTIANS

Jom Buela
John David Besinga
JR Adriano
Rhick Esteves
Shakira Suzumiya
Jack Niklauz Kimpo

If you know the names of the other fake Christians in this photo, please help us, so that real Christians will **MARK AND AVOID** them.

Real Christians will repent of their sins, they will not bastardize and blaspheme the sacrament of our Lord Jesus Christ.

If Kanan gains a seat in Congress, we will push for a law banning blasphemous public activities like this.

"SORRY HA, GALING AKONG GYM EH"
Senate President Win Gatchalian apologized for briefly dipping water amid the press conference on Thursday.
"Sorry ha, galing akong gym eh. Uhaw na uhaw, hindi ako nakainom," he said, drawing chuckles from the crowd.
He mentions that going to the gym helps him with stress. "Para mawala 'yung stress," he added.

You have to give it to PBBM. He is very presidentiable compared to the previous president we had. PBBM carries himself with style, dignity, grace and formality. He especially presents himself well during global diplomatic affairs.
